

**TECHNICAL DATA SHEET**

**LONG LIFE POLISHING PAD - SOFT (Dark Grey)**

**Article number:** 49881

**Intended use:** Car refinishing product/ Polishing, griding

**General characteristics:**

- for mechanical polishing and griding;
- suited for using with coarse-grained polishing pastes.

**Product characteristics:**

- structure of the foam allow to hold the water inside the pad, what decrease the temperature of the polishing surface;
- the pad does not get into vibration during the work, which has a considerable effect on its life time;
- the Velcro holder is made from very strong, reusable material. It allows the pad to be securaly fitted into the polisher;
  
- color: Black (dark grey)

**Available types of working surface:**

- flat

**Technical characteristics:**

- the Velcro holder hook-up type
- the foam is polyurethane, polyester type, high resistantce and shock absorption
- genera physical parameters of foam:

FEATURES	UNIT	VALUE
Density	kg/m3	19.5 – 22.5

Rigidity 40%	kPa	2.3 – 3.8
Elongation at break	%	160
Tensile strenght	kPa	110
Cell diameter	Mikron	440 – 520
Max compression set	%	5

### Usage:

the pad can be applied both wet and dry at maximum rotation speed 2600 rpm without load.

### Available sizes:

150mm x 25mm

### Available holders:

Velcro

This release replaces all eventually earlier issued versions.
