SAFETY DATA SHEET according to Regulation (EC) No 1907/2006 (REACH) as amended

Revision date: 28.07.2021

<u>1- IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/</u> <u>UNDERTAKING</u>

Product details
Trade name: Upholstery cleaner
Article number: 49751
Substance / mixture: mixture
Relevant identified uses of the substance or mixture and uses advised against
Intended use: PC-CLN-14.1 Cleaning products for carpet/upholstery / Upholstery cleaner with stain remover.
Mixture uses advised against: The product should not be used in ways other then those referred in Section 1.
Manufacturer/Supplier: Chamäleon GmbH
Rudolf-Diesel-Straße, 8a, 69155 Heidelberg -- Germany
Further information obtainable from: Product Safety Department
Information in case of emergency: + 49 70024112112 (CH)

<u>2 – HAZARDS IDENTIFICATION</u>

Classification of the substance or mixture Classification of the mixture in accordance with Regulation (EC) No 1272/2008 The mixture is classified as dangerous. Eye Irrit. 2, H319 Full text of all classifications and hazard statements is given in the section 16. Most serious adverse effects on human health and the environment: Causes serious eye irritation. Label elements Hazard pictogram:

Signal word: Warning Hazard statements:

STEUERNUMMER/ TAX NR.: DE 231468544 EORI NR./ CUSTOMS NR.: DE 6029442 / HRB 9778 GESCHÄFTSFÜHRER/ CEO: SASCHA HAGEMANN

H319 Causes serious eye irritation.

Precautionary statements:

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P280 Wear protective gloves.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P405 Store locked up.

Supplemental information:

<5 % non-ionic surfactants, <5 % EDTA and salts thereof, perfumes, Preservation agents: Laurylamine dipropylenediamine, Benzisothiazolinone, Methylisothiazolinone

Other hazards:

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No.n1907/2006 (REACH) as amended.

3- COMPOSITION/INFORMATION ON INGREDIENTS

Mixtures

Chemical characterization:

Mixture of substances and additives specified below.

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment:

| Identification numbers | Substance name | Content in % weight | Classification according to Regulation (EC) No 1272/2008 | Note |
|---|--------------------------------|---------------------------|---|------|
| Index: 603-014-00-0 CAS: 111-76-2 EC: 203-905-0 | 2-butoxyethanol | <3 | Acute Tox. 4, H302+H312+H332 Skin Irrit. 2, H315 Eye Irrit. 2, H319 | 1 |
| CAS: 160875-66-1 | 2-Propylheptanol ethoxylate | <1 | Eye Dam. 1, H318 | |
| CAS: 68439-49-6 | ethoxylated alcohol fatty | <1 | Acute Tox. 4, H302 Eye Irrit. 2, H319 | |

Notes:

1 Substance with a Union workplace exposure limit.

Full text of all classifications and hazard statements is given in the section 16.

CHAMÄLEON GMBH RUDOLF-DIESEL-STRASSE 8A 69115 HEIDELBERG GERMANY

FON 0049 (0) 6221 - 520 440 FAX 0049 (0) 6221 - 520 449 MAIL INFO@CHAMAELEON-PRODUKTION.DE WWW.CHAMAELEON-PRODUKTION.DE

<u>4– FIRST - AID MEASURE</u>

Description of first aid measures:

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

If inhaled:

Terminate the exposure immediately; move the affected person to fresh air.

If on skin:

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

If in eyes:

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. Rinsing should continue at least for 10 minutes. Provide medical treatment, specialized if possible.

If swallowed:

DO NOT INDUCE VOMITING - even the inducted vomiting can cause complications as in case of detergents and other foaming substances.

Most important symptoms and effects, both acute and delayed

If inhaled: Not expected.

If on skin: Not expected.

If in eyes:

Causes serious eye irritation.

If swallowed:

Irritation, nausea.

Indication of any immediate medical attention and special treatment needed:

Symptomatic treatment.

5-FIRE - FIGHTING MEASURE

Extinguishing media

Suitable extinguishing media:

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

Unsuitable extinguishing media: Water - full jet.

Special hazards arising from the substance or mixture:

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

Advice for firefighters:

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

CHAMÄLEON GMBH RUDOLF-DIESEL-STRASSE 8A 69115 HEIDELBERG GERMANY

Commission Directive 2000/20/EC

<u>6-ACCIDENTAL RELEASE MEASURE</u>

Personal precautions, protective equipment and emergency procedures:

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

Environmental precautions:

Prevent contamination of the soil and entering surface or ground water.

Methods and material for containment and cleaning up:

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

Reference to other sections:

See the Section 7, 8 and 13.

7-HANDLING AND STORAGE

Precautions for safe handling:

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Prevent contact with skin and eyes. Wash hands and exposed parts of the body thoroughly after handling. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

Conditions for safe storage, including any incompatibilities:

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. **Specific end use(s):** not available

<u>8 – EXPOSURE CONTROLS / PERSONAL PROTECTION</u>

Control parameters

The mixture contains no substances for which occupational exposure limits are set.

European Union

| European Union | | Com | mission Directive 2000/39/f | |
|-----------------|----------------|-----------------------|-----------------------------|--|
| Substance name | Туре | Value | Note | |

Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

Eye/face protection:

Protective goggles.

Skin protection:

Hand protection: Protective gloves resistant to the product. Contaminated skin should be washed thoroughly.

Respiratory protection:

Halfmask with a filter against organic vapours or a self-contained breathing apparatus as appropriate if exposure limit values of substances are exceeded or in a poorly ventilated environment

Thermal hazard: Data not available.

Environmental exposure controls:

Observe usual measures for protection of the environment, see Section 6.

<u>9 – PHYSICAL AND CHEMICAL PROPERTIES</u>

<u>10– STABILITY AND REACTIVITY</u>

Reactivity: not available

Chemical stability: The product is stable under normal conditions.

Possibility of hazardous reactions: Unknown.

Conditions to avoid:

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

Incompatible materials:

Protect against strong acids, bases and oxidizing agents.

Hazardous decomposition products:

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

<u>11– TOXILOGICAL INFORMATION</u>

Information on hazard classes as defined in Regulation (EC) No 1272/2008:

Inhalation of solvent vapors above values exceeding exposure limits for working environment may result in acute inhalation poisoning, depending on the level of concentration and exposure time. No toxicological data is available for the mixture.

Acute toxicity:

Based on available data the classification criteria are not met.

Skin corrosion/irritation:

Based on available data the classification criteria are not met.

Serious eye damage/irritation:

Causes serious eye irritation.

Respiratory or skin sensitisation:

Based on available data the classification criteria are not met.

Germ cell mutagenicity:

Based on available data the classification criteria are not met.

Carcinogenicity:

Based on available data the classification criteria are not met. **Reproductive toxicity:**

Based on available data the classification criteria are not met.

Toxicity for specific target organ - single exposure:

Based on available data the classification criteria are not met.

Toxicity for specific target organ - repeated exposure:

Based on available data the classification criteria are not met. **Aspiration hazard:**

Based on available data the classification criteria are not met. **Information on other hazards:** not available

<u> 12 – ECOLOGICAL INFORMATION</u>

Toxicity

Acute toxicity: Data for the mixture are not available.

Persistence and degradability:

The mixture is biodegradable.

Bioaccumulative potential: Data not available.

Mobility in soil: Data not available.

Results of PBT and vPvB assessment:

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

Endocrine disrupting properties: not available

Other adverse effects: Data not available.

<u>13–DISPOSAL CONSIDERATION</u>

Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorized for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

Waste management legislation:

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended.

Decision 2000/532/EC establishing a list of wastes, as amended.

<u>14– TRANSPORT INFORMATION</u>

UN number or ID number: not subject to transport regulations UN proper shipping name: not relevant Transport hazard class(es): not relevant Packing group: not relevant Environmental hazards:

<u> 15 – REGULATORY INFORMATION</u>

Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. Regulation (EC) No. 1272/2008 of the European Parliament and of the Council of 16th December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No. 1907/2006, as amended. REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents, as ammended. **Chemical safety assessment:** not available

16-OTHER INFORMATION

A list of standard risk phrases used in the safety data sheet:

H302 Harmful if swallowed.

H315 Causes skin irritation.

H318 Causes serious eye damage.

H319 Causes serious eye irritation.

H302+H312+H332 Harmful if swallowed, in contact with skin or if inhaled.

Guidelines for safe handling used in the safety data sheet:

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P280 Wear protective gloves.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P405 Store locked up.

Other important information about human health protection:

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection
